Relevant Professional Background

DXC Technology

PLM Applications for BAE/RBSL – Nov 2023 - Present

- Aligned BAE Systems and RBSL needs with strategic objectives.
- Managed Teamcenter (versions 11, 13, 14) to enhance efficiency to help over 1500 users.
- Handled Oracle, SQL, and PowerShell scripts for seamless integration which helped managed data for 5 different servers and over 3000 users.
- Led a team through implementation, customisation, and support phases to support customer and client needs.
- Facilitated BAE server migration to RBSL network which helped users manage and support Teamcenter on a new and modern server.

BAE Project Lead - May 2022 – Nov 2023

- Managed a team of 4 for laptop deployment and construction which resulted in 13,000 laptops being deployed for customer satisfaction.
- Ensured timely deliveries, surpassing deadlines which resulted in great feedback from stakeholders and clients.
- Reduced cost for the project by £250,000 leading to the project spending this in other areas to help production and our team
- Coordinated logistics and resource management.
- Fostered cross-functional team collaboration for successful projects.

Freelance Web Design Business - May 2023 - Present

- Designed and developed responsive websites tailored to client needs.
- Tech stack: HTML, CSS, JavaScript, TypeScript, React, Next.js, Node.js, Tailwind, Prisma, MongoDB, SQLite, Python, Linux, Framer Motion.

- Managed projects from concept to deployment with clear client communication.
- Built a portfolio of 10+ successful projects across various industries.
